

### Key Messages

- **Every child should grow up in a loving family environment and with the sense of belonging that comes from being a permanent part of a family and home.**
  - Our goal is to make more adoptions possible and give as many children without families a life they otherwise may not have known.
- **Gift of Adoption is a national charitable organization that fills the void that separates child from family. We inspire adoption by providing grants to qualified parents — giving children in need of families a home and chance to thrive.**
  - We provide the final funds to complete the adoptions of vulnerable children born in the U.S. and around the world.
  - We prioritize grants for the most vulnerable children facing what is possibly their last or only chance at adoption. This includes families who are working to unite or keep siblings together and those adopting children with critical medical conditions or kids aging out of orphanages.
  - We offer grants of up to \$7,500 to provide families – regardless of race, religion, age or marital status – the financial support needed to bring their child home.
- **Through Gift of Adoption, everyone can make a difference. You don't have to adopt to give a child a safe and nurturing home. A donation to Gift of Adoption makes an adoption possible, giving a child in need of a family a place to call home.**
  - We ensure donors see the direct impact they have on a child's life. By sharing frequent updates on the child whose adoption they helped make possible, donors witness first-hand how they can transform lives.
